## Company Overview

Nabla is the first and only AI-enabled GRC consultancy that puts automation and compliance-as-code at the core of every engagement. We provide services such as the codification of infrastructure resources into OSCAL, ConMon support, and FedRamp 20x advisory, all with a focus of ensuring organizations achieve continuous compliance, shorten authorization timelines, and build security programs that scale with their growth

## Core Competencies

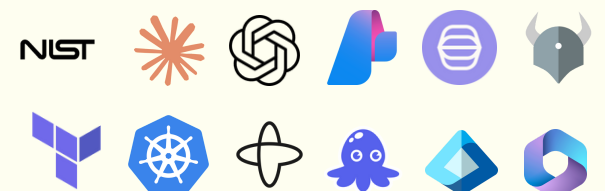

- GRC Automation
- Compliance-as-code
- FedRamp 20x Advisory
- AI-assisted development
- NIST Guideline Knowledge

## Differentiators

- Small, agile, AI-enabled team
- Specialized technical depth in automation/tooling
  - Reduces prime implementation labor by 60%
  - Ideal subcontractor for FedRAMP 20x acceleration

## Capabilities Snapshot

### Tooling Stack

### Typical Contract

\$65k-\$120k
